

WHAT IS CLAIMED IS:

1. A pen comprising:

a penholder;

a decoration piece connected to the penholder;

5 a head pivotably connected to the decoration piece, and

a striking part connected to the decoration piece and at least one striking piece connected to the striking part, the at least one striking piece being located to hit the head when the head pivots.

2. The pen as claimed in claim 1, wherein the striking part includes
10 at least one arm extending therefrom and the at least one striking piece is connected to a distal end of the at least one arm.

3. The pen as claimed in claim 2, wherein the at least one striking piece is a ball-shape piece.

4. The pen as claimed in claim 1, wherein the head includes a
15 hollow casing having an open top and at least one slot is defined through a wall of the casing and communicates the open top.

5. The pen as claimed in claim 4 further comprising a decoration part which is engaged with the open top of the head.

6. The pen as claimed in claim 5 further comprising a receiving
20 member located inside of the head and the decoration part connected to the receiving member.

7. The pen as claimed in claim 1, wherein the head includes a connection part which includes a first plate and a second plate, two first holes

defined through the first plate and the second plate of the connection part, a second hole defined through the decoration piece and a pin extending through the first holes and the second hole.

8. The pen as claimed in claim 7, wherein a decoration member is
5 connected to the first plate.

9. The pen as claimed in claim 1 further comprising a fragrance part connected to the penholder.

10. The pen as claimed in claim 9, wherein the fragrance part includes a box and a plurality of dispensing holes are defined through a wall
10 of the box of the fragrance part.

11. The pen as claimed in claim 1 further comprising a base member which includes a hole and the pen is inserted in the hole.
